

Caught! The wide zoom range of the 2.8-11mm lens in USAG's AVC2 series cameras captures the criminal. The AVC2 series is carefully hand assembled in the USA.

Missed! The narrow zoom range of the 3.5-9mm lens in other 3-Axis Ball/Socket cameras failed to capture the crime. You should have used a 2.8-11mm AVC2 Series camera from USAG.

Don't Miss the Crime
